

Product Information

Specifications

Berkelium-249

Half-Life/Daughter	330 days to californium-249 (beta decay) and americium-245 (alpha decay, 0.0014%)
Decay	Decay Radiation Information (NNDC)
Chemical Form	Solid nitrate or chloride
Radionuclide Purity	>98% by weight, <0.001% Cf-252
Production Route	Neutron capture on curium-248
Processing	Transuranic processing
Primary Container	Glass vial
Availability	Special order
Unit of Sale	Micrograms

Other Information
