

Product Information

Specifications

Cobalt-60

Half-Life/Daughter

1925.28 days to nickel-60

Decay

[Decay Radiation Information \(NNDC\)](#)

Chemical Form

Nickel-plated pellets (1 mm x 1 mm)

Available Specific Activity

>11 TBq/g (>300 Ci/g)

Radionuclide Purity

>99%

Production Route

Neutron capture in targets of reactor-grade cobalt metal

Processing

None

Primary Container

Welded, special form stainless steel shipping containers
